 - Defense Inventory Compliance with Regulations Needed to Improve the Security of Munitions Shipments
- Strategic Plan
 - Signed May 04; Deputy Secretary of Defense
 - Improve safety and security of DoD AA&E shipments
 - 14 Action Implementation Plans with OPRs/OCRs
- Implementation Plan
 - Draft signed Oct 04; Deputy Under Secretary of Defense, Logistics and Materiel Readiness
 - Final to be signed within the next 60 days

UNCLASSIFIED

DTTS/IRRIS Transition

- Defense Transportation Tracking System (DTTS)
 - Satellite tracking system used to provide in-transit visibility for AA&E shipments
 - Accident/incident notification
- Intelligent Rail/Road Information System (IRRIS)
 - Initially designed to monitor road, bridge and weather conditions primarily for organic moves
- Redundancies between two systems noted by GAO in their Jul 2003 report
- DTTS will transfer from Navy “ownership” to SDDC in Oct 05

Transportation Protective Service/ ~~Classified Material~~

- TPS requirements for AA&E
 - DTR, Part II, Chapter 205, Movement of Sensitive Conventional Arms, Ammunition, and Explosives, Classified (Secret and Confidential), and Controlled Cryptographic Items Sensitive Items
- Movement of weapons and small quantities of AA&E is a big concern
- Currently developing policy message to address this issue
- Will coordinate with all concerned

Universal Services Contract 05

- SDDC-sponsored contract
 - Liner service for the shipment of DoD assets worldwide
 - Wide range of commodities including AA&E and related hazardous materials
- Automated Tracking Tools
 - Reports
 - In-transit data
- Proposed changes to be in place by Sep 05

Solid Wood Packaging Material Inspection Methods

- United Nations requirements for wood packaging material
- MOA between USDA and DoD drafted
 - Will provide DoD with authority to inspect, certify and mark wood products used in packaging
 - Will allow Marine Corps to self-certify inspections; submit audit reports
 - “Inspection Agency” must be independent from P3 shop
- TMO as the “Inspection Agency”?
- Once USDA signs MOA, MARADMIN will address guidance on inspection and reporting responsibility

Defense Transportation Coordination Initiative (DTCI)

- Third Party Logistics (3PL) initiative
- Transportation management services for the movement of DoD material within CONUS
- Savings expected through:
 - Consolidated LTL shipments
 - Diverting shipments from air to surface
 - Greater use of cross-docking processes
- Working closely with TRANSCOM to determine Marine Corps participation

Tailored Transportation Contract (TTC)

- Initial contract replaced Guaranteed Traffic Agreements
- TTC first implemented in Jan 02
 - Currently in last option year
- Beaufort, Lejeune and Yuma participating
 - Numerous problems documented
- DTCI impact

Defense Transportation Regulation (DTR)

- All DTR Parts (1-6) are on TRANSCOM's website
- Hardcopies/CDs no longer produced
- Refer to website for updated changes by chapter
- Proposed changes provided for comment
 - Your review is critical

Marine Corps E2E Distribution Strategy

and Freight Transportation Manual

- End-to-End Distribution Manual
 - Outline developed
- Will incorporate the Freight Transportation Manual (excluding Personal Property) which is currently under revision
 - Update info
 - Eliminate redundancies with other publications
 - Include Marine Corps specific guidance
- Formal staffing sometime during 4th Quarter FY 05

Miscellaneous Point Papers

- Wide Area Workflow (WAWF)
- National Inventory Management Strategy (NIMS)
- Joint Environmental Material Management Service (JEMMS)
- Joint Regional Inventory and Materials Management (JRIMM)
- Transportation Discrepancy Report (TDR) Automation
